Eggers Industries Acoustical Frame

Eggers Industries is proud to announce the development of a veneered acoustical frame. Eggers' acoustical wood door and frame offer the beauty of a veneered opening without sacrificing the function and privacy of an acoustical rating.

Elegant... Eggers' acoustical products are available in virtually any veneer and finish color. Special details such as sketchface veneer matching, reveals, and lite openings give your product a signature look that is uniquely yours. Perfect for the grand entrance to a concert hall or the distinction of a boardroom, Eggers' products are custom made to your vision.

Cohesive... Eggers' acoustical wood jambs allow the beauty of our doors to be accented with matching wood frames, designed to create a cohesive look metal frames can't match. Play with the details, knowing Eggers will work diligently to make your acoustical door and frame a perfect match.

Functional... Used in combination with an Eggers' acoustical door, Eggers' acoustical jamb can provide an STC rating of up to 45.

Eggers' acoustical jambs are sold exclusively in combination with Eggers' acoustical doors. Please go to www.eggersindustries.com or call 920.793.1351 for more details.
