### **Eggers Industries Awarded Health Improvement Award**

Eggers is the proud recipient of the 2011 Health Improvement Award that was awarded last week at the Employer Choice Awards sponsored by Holy Family Memorial. Eggers takes great pride in the wellness benefits their employees have received over the past nine years through the partnership Eggers has forged with Holy Family Memorial Work Health Options.

Eggers Industries utilizes the Health Risk Assessment (HRA) process to drive health improvement. By rewarding their employees with reduced premiums for good Health Risk Assessment scores, Eggers has continually improved scores company-wide each year. In order for an employee and their spouse to qualify for Eggers' insurance program, they must participate in the HRA process. For employees not meeting the required score for this benefit, Eggers has provided an opportunity for the participant to partake in a series of voluntary telephonic coaching sessions to focus on areas for improvement.

Some of the key health improvements that Eggers Industries has made include reduction of the Extreme Risk category and increase in the Minimum Risk category. Tobacco use by employees has dropped 10% and blood pressure has gone down 5% in the last year.

Together with Holy Family Memorial, Eggers Industries is currently working on a corporate-wide wellness program to improve the quality of life and safety for all of our employees. Key areas of focus will be LDL Cholesterol, Body Fat, and Weight Control as identified as areas of improvement for employees at Eggers on the most recent HRA assessment.
