

Sealing Top and Bottom Edges

Eggers' continually going the extra mile to ensure quality

High-Quality Products for High-Traffic Environments

Eggers automatically seals the tops and bottoms of all doors with a UV Cured Finish System, the highest rated finish system currently available. It's all about the details at Eggers, sealing is the norm for us even though it is not a standard offering with other door manufacturers.

The Benefits are for You

- Sealing encapsulates VOC's and reduces their emissions to near zero levels.
- Protecting the bottom of the door from moisture due to daily contact with floor cleaners, solvents, contaminants and household chemicals protects the entire door.
- Sealing is essential for doors used in high maintenance areas.
