

ACOUSTICAL SOLUTIONS FOR YOUR ENVIRONMENTAL NEEDS

Eggers Industries

NO ADDED UREA FORMALDEHYDE AND FSC CERTIFIED ACOUSTICAL SOLUTIONS TO MEET YOUR NEEDS

Environmental programs such as LEED for Schools and the Collaborative for High Performance Schools (CHPS) goes beyond the requirements of standard door constructions. Acoustical requirements provide an environment where fewer distractions make it easier for students to focus on their studies instead of the sounds around them. LEED for Schools requires a minimum STC 30 for classroom entry doors.

Eggers Industries is committed to joining in these efforts. That's why we are proud to present our newest acoustical offerings, designed to provide students with the air quality and sound absorption that positions them to succeed.

	No Added UF Particleboard Core	FSC Certified Particleboard Core
MR 4: Recycled Content	✓	✓
MR 7: Certified Wood		✓
EQ 4.4: Composite Wood, Agrifiber, and Adhesives meet CHPS low-emitting materials criteria Sec. 01350	✓	✓
EQ 9: Enhanced Acoustical Performance	✓	✓

	STC 31	STC 32	STC 33	STC 34	STC 35
Core Type	No Added Urea Formaldehyde Particleboard Core or FSC Certified Particleboard Core				
Application	Single Swing				
Maximum Opening Size	4' x 10'				
Fire Rating	20-min or non-rated		Non-Rated	20-min* or non-rated	Non-Rated
Glazing Available	370 sq in max of 1" rated insulated glass unit (IGU-20-min), 1-1/8" non-rated IGU or 1/2" laminated		380 sq in or more of 1/2" laminated glass or 1 1/8" insulated glass unit (IGU)		1000 sq in or more of 1/2" laminated glass or 1 1/8" insulated glass unit (IGU)
Glazing Installation	LoPro IS MVP (20-min.) or Wood Bead (flush or lipped) for non-rated		Wood bead (flush or lipped)	Fiberglass-filled metal vision panel	Wood bead (flush or lipped)
Gasketing System	Eggers gasket system I **		Eggers gasket system I ** OR Eggers gasket system C **		
Hardware Available	Available with standard door hardware including butt hinges, surface mounted closers, cylindrical or mortised locks, applied moulding, raceway, etc.				
Face Species	Available in virtually all available veneer species, MDO, plastic laminate or vinyl				

* for 20-minute applications a fire-rated IGU is required

** Please see our Acoustical literature for a detailed explanation of all gasket systems
