

## About Eggers Finishing System

**Eggers Industries**

### **FINISHING SYSTEM**

Eggers provides the widest selection of finishing systems in the industry. Our wide range of finish systems is anchored by Gardall UV, consisting of water based stains and 100% solid clear coats which contain no VOC's. Gardall UV is an environmentally friendly finish system. Other finish systems are available upon request. Eggers' Gardall UV finish system meets or exceeds AWI System TR-6 Catalyzed Polyurethane. Eggers' broad selection of finishing systems provides a cost effective alternative to field finishing. With factory finishing, you can expect superior color consistency and uniformity.
